## ERRATUM

**Open Access** 

Erratum to: Retinoic acid receptor signaling preserves tendon stem cell characteristics and prevents spontaneous differentiation in vitro

Stuart Webb<sup>†</sup>, Chase Gabrelow<sup>†</sup>, James Pierce, Edwin Gibb and Jimmy Elliott<sup>\*</sup>

Following publication of the original article in Stem Cell Research & Therapy [1], we would like to alert the reader that the word "vitrox" in the title is incorrect and should read as "vitro".

The corrected title reads: Retinoic acid receptor signaling preserves tendon stem cell characteristics and prevents spontaneous differentiation in vitro.

The original article has been updated with the corrected title. The publisher apologizes for the inconvenience this may have caused.

Received: 22 March 2016 Accepted: 7 April 2016 Published online: 22 April 2016
